Nancy D. Miller Executive Director/CEO VISIONS 500 Greenwich St., 3rd Floor New York, NY 10013-1354

Dear Ms. Miller,

Congratulations on your exemplary leadership at VISIONS! Your 35 years of tireless service and advocacy have contributed to the success and growth of VISIONS, and more importantly, has led to the independence of countless blind New Yorkers who have been supported through your agency's work. Your ongoing support of visually impaired children and adults has helped people reach milestones that would likely not have been possible without the support received from VISIONS.

VISIONS has grown in scope of services and has become a leader in vision rehabilitation. Your state of the art residential center and technology services have become an important part of the state's service delivery system. Your commitment to New York's older blind people provides new ways to offer rehabilitation services to the aging population.

We recognize your leadership during the pandemic and appreciate your ongoing commitment to provide services during such a difficult time.

Congratulations to you and VISIONS for all your achievements and contributions to our communities. You are a valued partner, and we look forward to many years of your continued success.

Sincerely,

Dear Nancy,

For over three decades you have grown VISIONS into one of the premier organizations for New Yorkers with vision impairment, creating a model that can be replicated across the country. Because of your unflinching advocacy and being a consummate teacher, you and your organization have had a profound impact for those who have difficulty seeing. And you did it your way.

By creating wraparound services for those with trouble seeing, including exercise and art classes that are combined with opportunities for socialization, these individuals can age with dignity because you laid a foundation that helps create a city that is inclusive for everyone.

The lasting impact you have had is because you continued to be innovative. This is highlighted with the VISIONS Center on Aging, the country's first older adult center for blind and low vision residents. This center has given countless older adults with the opportunity they need to live full and productive lives, on top of the social services support they need to help with their vision impairment.

All the recognition you receive tonight is more than well deserved, and I am thrilled they chose to honor you this evening.

Sincerely,

Lornaine Contes - Vagquez

To Honor Nancy for Her Exceptional Leadership During the Ongoing Pandemic:

She has led VISIONS through this unprecedented time with great care and skill, maintaining the delicate balance of protecting the health of our staff and participants foremost, continuing to deliver services old and new, and ensuring VISIONS' ability to continue to fulfill its mission. She has needed to draw upon her decades of experience in serving our participants in an environment where relevant government directives and medical knowledge have been changing on a daily basis. The trust and confidence Nancy built with her staff over the years allowed them to continue to go forth into the community and serve through even the darkest days of the pandemic. She helped us find new and creative ways to serve our participants that enabled them to continue moving forward and navigate the pandemic themselves.

The great achievement of leading VISIONS during the pandemic is a continuation of Nancy's extraordinary dedication to improving the lives of our wide range of constituents.
